

We're Here to Help

At UCP, we take pride in the accomplishments of our clients with developmental disabilities, no matter how big or small. Each day, we make it our goal to provide them with the chance to discover a new skill, overcome a challenge or simply experience the pride of being included.

Find out more about UCP's programs and services by visiting our website or give us a call!

Using ABA socialization
skills to children with autism,
ages 8-12, while helping
them build a foundation
for friendships

of Sacramento and Northern California
Life without limits for people with disabilities

A collaborative partnership between UCP of Sacramento and Northern California and California State University, Sacramento

Autism Center for Excellence (ACE)

What is ACE?

UCP's Autism Center for Excellence (ACE) is a structured after-school applied behavior analysis (ABA) socialized training program designed to meet the needs of children, ages 8-12, with autism. With a 1 to 3 staff to child ratio, children receive individualized instruction during large and small group socialization activities. ACE instructors include trained paraprofessionals and student interns working under the direction of a clinical director and clinic supervisors.

ACE is a contracted provider of Alta California Regional Center and most insurance companies, including Medi-Cal.

"My son loves it. He senses that at ACE he fits in and is accepted as he is."

"My son really enjoys going to ACE... we have noticed a difference in behavior at school and at home."

ACE Spells Success!

Kids and parents tell us they enjoy the ACE program. It is a unique community of professionals, families and children all working to create a safe and supportive program where kids with autism spectrum disorder can:

- Learn social and interpersonal communication skills
- Build friendships and social support networks
- Learn teamwork and practice good sportsmanship
- Increase appropriate behaviors

"My son is better at waiting and dealing with change. His communication is improved and he has fewer outbursts."

The Facts about Autism

- Autism is the fastest-growing serious developmental disability in the U.S.
- Autism now affects 1 in 68 children*
- 1 in 42 boys and 1 in 189 girls are diagnosed with autism in the U.S.*
- There is no cure for autism
- Most individuals with Autism Spectrum Disorder will need support throughout their lifetime
